Mr. Edward Hammerberg Technical Specialist/RCE Supervisor Waste Division and Utilization Program Maryland Department of the Environment 1800 Washington Boulevard, Suite 645 Baltimore, MD 21230

Subject: Transmittal of Quarterly Site Progress Report, First Quarter 2013

2000 Race Street Site, Baltimore, Maryland

Dear Mr. Hammerberg:

Please find attached the First Quarter 2013 Site Progress Report for the 2000 Race Street Site, Baltimore, Maryland. This document is provided on behalf of Honeywell and the Mayor and City Council of Baltimore pursuant to the requirements of Section III.A of the 2000 Race Street Site Consent Order (effective date of May 23, 2007).

If you have any questions or require additional information, please do not hesitate to contact me at 973-455-4131.

Very truly yours,

HONEYWELL INTERNATIONAL INC.

Christopher M. French, R.G., C.E.G. Manager, Remediation & Evaluation Services

A Site Inspection Reports

Introduction

Honeywell International Inc. (Honeywell) and the Mayor and City Council of Baltimore (City) are submitting this Quarterly Site Progress Report for the 2000 Race Street Site (Site) pursuant to the May 23, 2007, Administrative Consent Order (Consent Order) between the Maryland Department of the Environment (MDE), Honeywell, and the City. Quarterly Site Progress Reports will be submitted to MDE for the duration of the Consent Order. As specified within Section III.F of the Consent Order, the reports will identify the following information:

- Work completed and documents submitted to MDE in the preceding quarter;
- A schedule and submittals for the upcoming quarter; and
- Any delays, modifications, or changes anticipated in the upcoming quarter.

This report covers Site-related activities conducted under the Consent Order during the first quarter of 2013, from January 1 through March 31, 2013.

The Site is located at 2000 Race Street, in Baltimore, Maryland (ZIP Code 21230). It occupies approximately 10.3 acres and is bounded on the north by the Baltimore Gas and Electric (BGE) Spring Gardens facility, on the south by Swann Park, on the east by Race Street, and on the west by the Middle Branch of the Patapsco River. In addition, two elevated spans of Interstate 95 (I-95) oriented from east to west overlie the Site on the northern half of the property. A chain-link security fence is present at the perimeter of the Site. The Site has no onsite building structures and is currently vacant.

Controlled hazardous substances (CHS) are contained on the Site and covered with an engineered cap consisting of the following materials from top to bottom: asphalt, gravel base, and compacted clay. Cap maintenance is ongoing. Additional information regarding the Site is provided in several documents, including the May 23, 2007, Consent Order; the "Site Characterization Work Plan," dated September 2007; the "Site Characterization Report," dated September 2009; the "Near Shore Investigation Report," dated December 2009; and the "Interim Remedial Measures Assessment Investigation and Pilot Test Report," dated July 2012.

Quarter in Review

Activities performed at the Site during the first quarter of 2013 include the following:

- January 18: Monthly Site status call with MDE;
- January 24: Monthly Site status inspection (Appendix A);
- January 30: 4th quarter Site status report submitted to MDE;
- February 20: Monthly Site status call with MDE;
- February 21: Monthly Site status inspection (Appendix A);
- February 28: Inclinometer readings taken;
- March 27: Monthly Site status call with MDE;
- March 28: Monthly Site status inspection (Appendix A); and
- March 29: Asphalt cap repairs completed.

Upcoming Work and Submittals during the Second Quarter of 2013

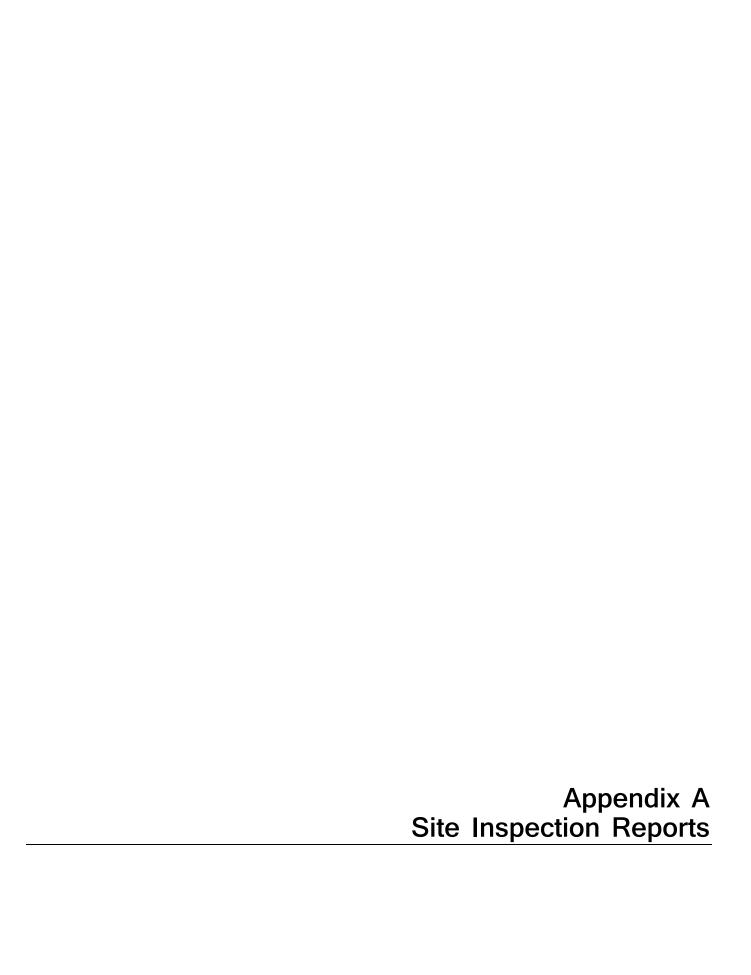

The following activities and submittals are anticipated to occur in the upcoming quarter:

- April, May, and June: conduct monthly Site status inspections and participate in monthly Site status calls with MDE;
- Initiate third party peer review of hydrodynamics associated with potential reactive barrier installation (potential IRM candidate technology);
- Perform quarterly inclinometer readings; and
- Submit the first quarter 2013 Site status report to MDE by April 30, 2013.

Schedule

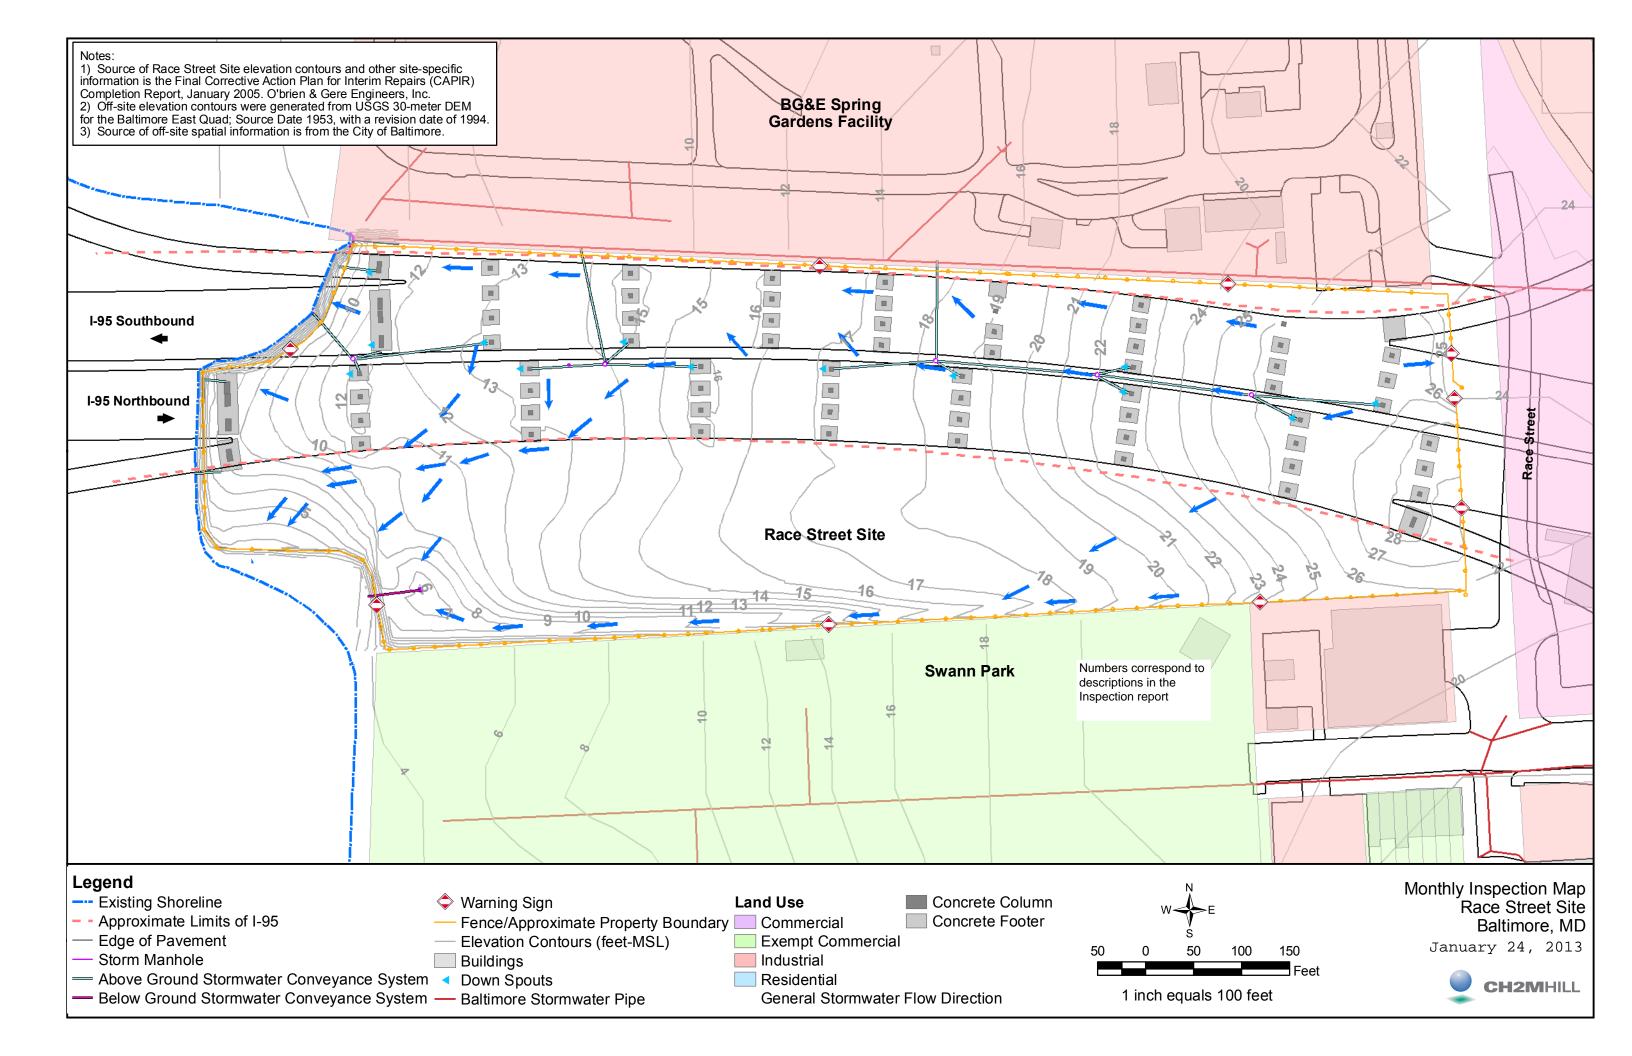

A schedule of activities anticipated during the first quarter of 2013 is provided below.

Milestone	Anticipated Date
April 2013	
Perform monthly Site inspection	4-18-13
Submit first quarter 2013 Site Status Report	4-30-13
May 2013	
Perform monthly Site status inspection	5-30-13
June 2013	
Perform monthly Site inspection	TBD
Perform quarterly inclinometer readings	TBD
Third Quarter 2013	
Submit Second Quarter 2013 Site Status Report	7-30-2013
