Re: Transmittal of Quarterly Site Progress Report, Third Quarter 2020, 2000 Race Street Site, Baltimore, Maryland

Dear Mr. Hammerberg:

Please find attached the Third Quarter 2020 Site Progress Report for the 2000 Race Street Site, Baltimore, Maryland. This document is provided on behalf of Honeywell and the Mayor and City Council of Baltimore pursuant to the General Inspection Requirements of Section II.C of the Controlled Hazardous Substance (CHS) Post-Closure permit issued by the Maryland Department of the Environment (MDE) for the 2000 Race Street Site Consent Order, effective September 27, 2019.

If you have any questions or require additional information, please do not hesitate to contact me at 973-455-3302, or by e-mail at Maria.Kaouris@Honeywell.com.

Sincerely,

A handwritten signature in blue ink that reads "Maria Kaouris".

Maria Kaouris
Remediation Manager

A	Site Inspection Reports
---	-------------------------

1. Introduction

Honeywell International Inc. (Honeywell) and the Mayor and City Council of Baltimore City (City) are submitting this Quarterly Site Progress Report for the 2000 Race Street Site (Site) pursuant to the General Inspection Requirements of Section II.C of the Controlled Hazardous Substance (CHS) Post-Closure Permit issued by the Maryland Department of the Environment (MDE) for the 2000 Race Street Site on September 27, 2019. Quarterly Site Progress Reports will be submitted to MDE to include the following information:

- Work completed and documents submitted to MDE in the preceding quarter
- A schedule and submittals for the upcoming quarter
- Any delays, modifications or changes anticipated in the upcoming quarter

This report covers Site-related activities conducted under the Consent Order during the third quarter of 2020, from July 1, 2020, through September 30, 2020.

The Site is located at 2000 Race Street, Baltimore, Maryland (ZIP Code 21230). It occupies approximately 10.3 acres and is bounded on the north by the Baltimore Gas and Electric Spring Gardens facility, on the south by Swann Park, on the east by Race Street and on the west by the Middle Branch of the Patapsco River. In addition, two elevated spans of Interstate 95 (I-95), oriented from east to west, overlie the Site on the northern half of the property. A chain-link security fence is present at the perimeter of the Site. The Site has no onsite building structures and is currently vacant.

Controlled hazardous substances are contained on the Site and are covered with an engineered cap consisting of the following materials from top to bottom: asphalt, gravel base, and compacted clay. The cap was completed at the end of 2019 and was implemented pursuant to a Controlled Hazardous Substances Permit referenced below. Cap maintenance is ongoing. Additional information regarding the Site includes the following: May 23, 2007, Consent Order; *Site Characterization Work Plan*, dated September 2007; *Site Characterization Report*, dated September 2009; *Near Shore Investigation Report*, dated December 2009; *Interim Remedial Measures Assessment Investigation and Pilot Test Report*, dated July 2012; *Supplemental Site Characterization Report* (former arsenic shed area), dated February 2018; *Interim Remedial Measures Assessment (IRMA) Report*, dated August 2018; the *Corrective Measures Alternatives Analysis Report*, dated August 2018; Post-Closure Controlled Hazardous Substance (CHS) Permit issued by MDE, dated September 27, 2019; and *Cap Construction Completion Report*, dated June 2020.

2. Quarter in Review

Site-related activities performed during the third quarter of 2020 include the following:

- July 8: Held near shore sediment review call with MDE;
- July 9: Held Project Coordinator call with MDE;
- July 23: Performed monthly site status inspection (Appendix A);
- July 27: Performed groundwater monitoring of onsite wells;
- July 2020: Performed post-construction punch list work on containment cap;
- August 6: Held Project Coordinator call with MDE;
- August 20: Performed monthly site status inspection (Appendix A);
- August 17: Performed groundwater monitoring of onsite wells;
- September 10: Held Project Coordinator call with MDE;
- September 12: Performed monthly site status inspection (Appendix A); and
- September 27: Performed groundwater monitoring of onsite wells.

3. Upcoming Work during the Fourth Quarter of 2020

The following activities and submittals are anticipated to occur in the upcoming quarter:

- Conduct monthly Site status inspections and participate in monthly Site status calls with MDE (October, November, and December);
- Submit the *Third Quarter 2020 Site Progress Report* to MDE;
- Submit *Methane Assessment Report* to MDE;
- Perform site-wide groundwater monitoring;
- Perform vegetation eradication;
- Submit first half 2020 Bridge Monitoring data report; and
- Perform quarterly Semi-annual Shape Accel Array (SAA)/inclinometer readings.

4. Schedule

A schedule of Consent Order activities anticipated during the third quarter of 2020 is provided below.

Milestone	Anticipated Date
October 2020	
Perform PRB & Groundwater Monitoring	10-19-20
Perform monthly Site status inspection	10-22-20
Submit Q3 2020 Site Progress report	10-30-20
Perform SAA/inclinometer readings	TBD
November 2020	
Perform monthly Site status inspection	TBD
December 2020	
Perform monthly Site Status inspection	TBD

Appendix A

Site Inspection Reports

**2000 Race Street
Monthly Site Inspection Checklist**

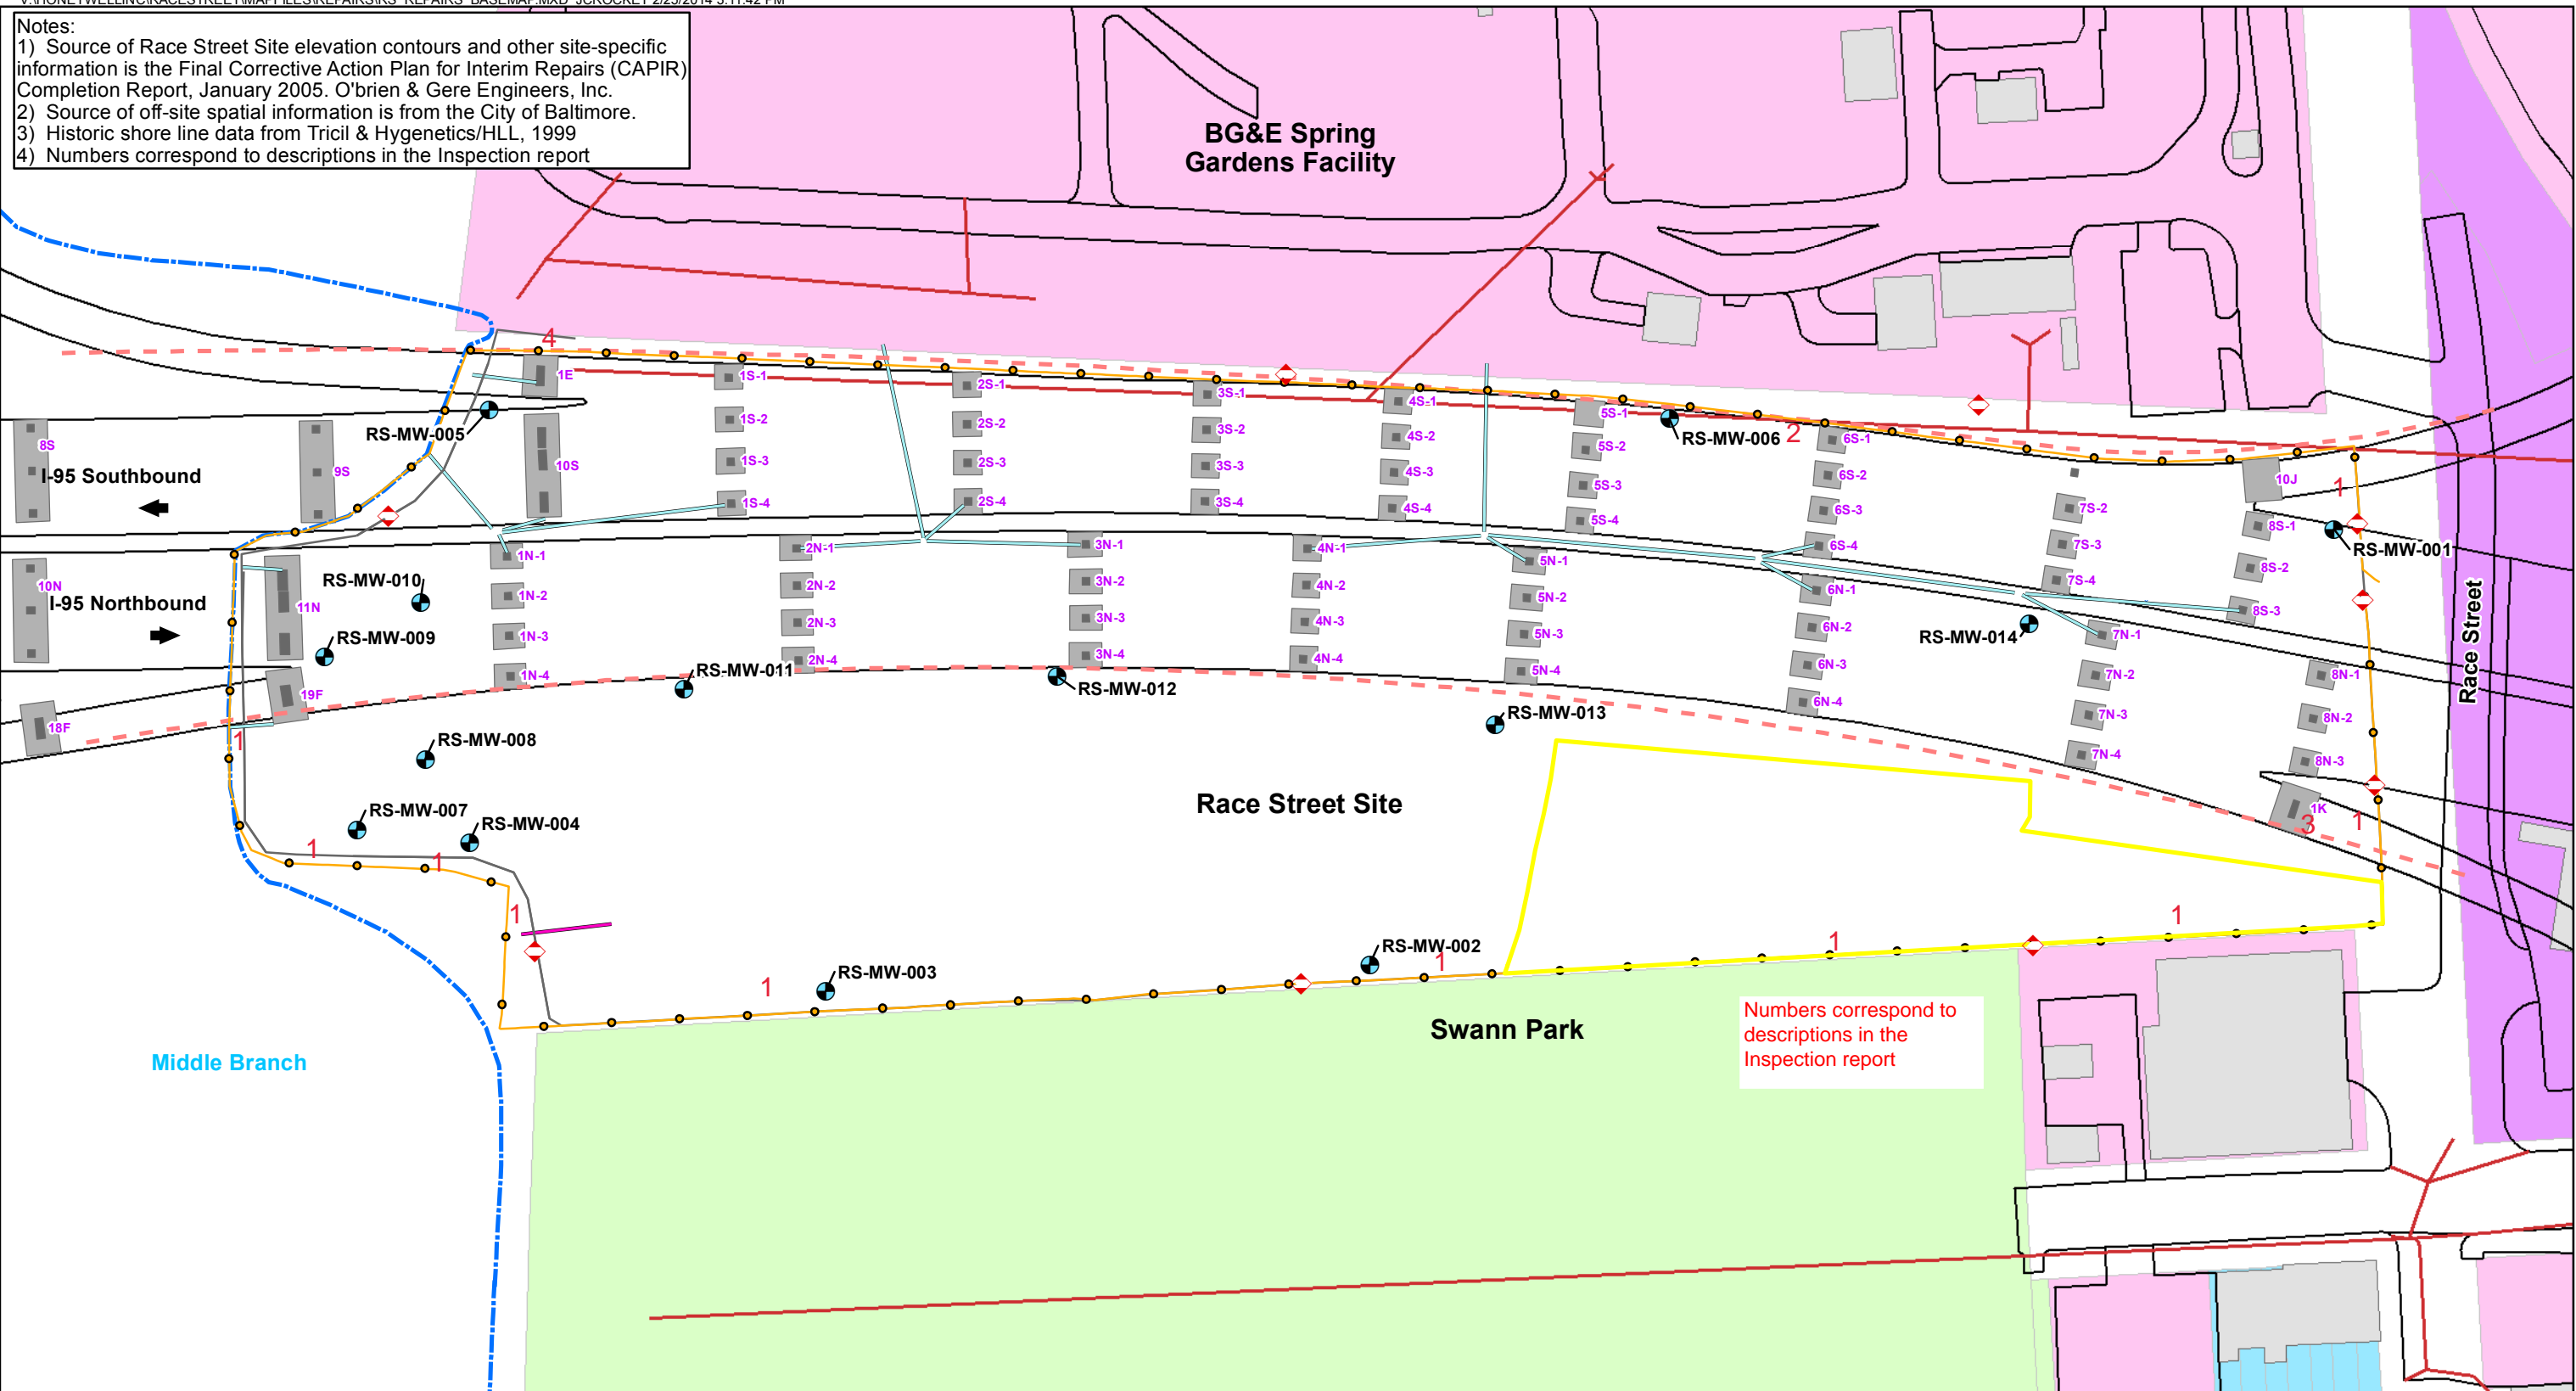

Inspector:	Bill Morris	Date of Inspection:	23-Jul-20
Title:	Environmental Engineer	Date of Last Inspection:	26-Jun-20
Organization:	Jacobs	Weather:	Partly cloudy, hot

Site Inspection Results				
Task	Observations	Actions Taken	Date Completed	Comments/Additional Observations
1. General				
Inspect site for presence of surface debris. Identify type, approximate volume of debris, and location via description or on Site Plan (attach to Monthly Site Inspection Checklist).	None	None	NA	NA
Inspect site for presence of vegetation. Identify estimated amount and location of vegetation via description or on Site Plan (attach to Monthly Site Inspection Checklist)	1: Vegetation growth along fence line 2: Vegetation growth through asphalt	City notified during monthly coordinator call.	7/9/2020	Vegetation removal to be performed as part of site maintenance during 2020.
2. Interstate 95 Footings and Joints				
Inspect around pier footings for settlement. Identify settlement off-set from grade and location via description or on Site Plan (attach to Monthly Site Inspection Checklist)	None	None	NA	NA
	None	None	NA	NA
3. Engineered Cap				
Inspect cap for alligator cracking. Identify estimated area of cracking and location via description or on Site Plan (attach to Monthly Site Inspection Checklist)	None	None	NA	NA
Inspect cap for holes. Identify number of holes, width and depth, and location via description or on Site Plan (attach to Monthly Site Inspection Checklist)	4: Groundhog burrow on side slope adjacent to asphalt	Animal traps were set but groundhog has not be captured for relocation.	TBD	Burrow to be filled during future cap maintenance activities during Q4 2020.
Inspect cap for cracks less than 0.5 inches wide. Note number of cracks. Identify location of cracks via description or on Site Plan (attach to Monthly Site Inspection Checklist).	None	None	NA	NA
Inspect cap for cracks greater than 0.5 inches wide. Note number of cracks. Identify location of cracks via description or on Site Plan (attach to Monthly Site Inspection Checklist).	None	None	NA	NA
Inspect cap for any signs of ponding of water	None	None	NA	NA
Inspect shorefront embankment for evidence of erosion or releases	None	None	NA	NA
Identify any other observations related to the condition of the cap and potential for cap damage	None	None	NA	NA
4. Fence				

**2000 Race Street
Monthly Site Inspection Checklist**

Site Inspection Results				
Task	Observations	Actions Taken	Date Completed	Comments/Additional Observations
Inspect fence for holes. Note number of holes. Identify location of holes via description or on Site Plan (attach to Monthly Site Inspection Checklist).	None	None	NA	NA
Inspect fence to determine if there is any erosion compromising the integrity of the fence	None	None	NA	NA
Inspect fence to determine if barbed wire is in good condition	None	None	NA	NA
Inspect gates, chains, and locks for damage	None	None	NA	NA
Inspect fence to determine if any vegetation is damaging or otherwise compromising fence		None	NA	NA
Inspect fence to determine if there is any burrowing beneath fence	None	None	NA	NA
Identify any other observations related to the condition of the fence and potential for fence damage (e.g., points of weakness, corrosion)	None	None	NA	NA
5. Aboveground Stormwater Conveyance System				
Inspect aboveground stormwater conveyance system including piping, downspouts, and drain in southwest corner of site for proper operation	3: Disconnected downspout.	None	NA	Maryland Transportation Administration to address down spout during bridge maintenance activities.
6. Vandalism				
Inspect site for any vandalism including any dumped material on-site and damage to monitoring wells	None	None	NA	NA
Identify any other observations related to vandalism on the site	None	None	NA	NA
7. Signage				
Inspect warning signs on exterior perimeter of fence to determine condition and readability. Identify number of signs removed/damaged/unreadable and locations via description or Site Plan (attach to Monthly Site Inspection Checklist)	None	None	NA	NA
8. Miscellaneous Items				
Any interaction with people on or adjacent to the site? If yes, identify who, title, organization, contact information, and content of interaction	None			
Other Comments/Observations?	None			

Notes:
1) Source of Race Street Site elevation contours and other site-specific information is the Final Corrective Action Plan for Interim Repairs (CAPIR) Completion Report, January 2005. O'Brien & Gere Engineers, Inc.
2) Source of off-site spatial information is from the City of Baltimore.
3) Historic shore line data from Tricil & Hygenetics/HLL, 1999
4) Numbers correspond to descriptions in the Inspection report
